February, 2018  
Hello Beloved Flea-goers!!

It's been 6 years exactly since I wrote a welcome letter for the Fetish Fair Fleamarket™ - and while the circumstance surrounding my writing this letter are not ideal, I am truly honored to be given the assignment. I write it on behalf of the Transition Team - Cecilia, Scott and myself; the three of us have almost half a century of combined experience with every facet of NELA. The only thing the three of us want to do is see that this most historic event – the 50th FFF – comes off without a hitch and that as usual, we provide a safe space for people to explore their interests with no shame or apology.

We NEED you to have a fun-filled, SAFE weekend. Please respect the hotel as your home and play responsibly. Our event has never allowed nudity and we ask that in public areas, especially the lobby, you exercise good taste. Please be mindful of accessibility and aware that not everyone has the same abilities. Respect the rules of consensuality. If at any time you feel uncomfortable or unsafe, please seek out a NELA officer or member of our Incident Response Team (IRT).

Visit Vendor's Row as many are open on Friday night at the vendors discretion. Remember! All vendors are not open Friday night. There could be a few last minute programming changes so review the class list and signage on each floor for the most up-to-date information.

Hotel guests may purchase admission wristbands Friday between 5pm and 9pm in the lobby. Card-carrying NELA Associates can start shopping at 10:30am Saturday and Sunday, a half hour before the general public. Not a NELA Associate yet? On Saturday you will be able to sign up for a NELA Associate Benefits Card (ABC) which entitles you to free or reduced-price admission to NELA events throughout New England and at events of NELA's reciprocal groups which stretch from Portland, Maine to Portland, Oregon.

NELA is the leading organization in New England for BDSM education, community advocacy and charitable giving. We need YOU to be a part of it all. NELA is looking for new board members and non-board lead officers to make NELA and the FFF better than ever. We're looking for a diverse group of people with the time, energy, and dedication to serve the many segments of our regional kink/BDSM/leather/fetish communities. Anyone interested is invited to attend and talk to the current board about what it takes to turn passion into action. Join us for coffee, tea, and danishes Sunday morning at 8:45 in Wickford to talk about officer positions, or Sunday 2pm in Tiverton to get involved in running next year's FFF!

Thank you for being a part of history - the longest running, largest, most affordable BDSM event in New England!

Cheers,

Vivienne Kramer  
Treasurer

Scott Erickson  
Director of Operations

Cecilia Tan

## **CODE OF CONDUCT AND INCIDENT RESPONSE TEAM (IRT)**

NELA reserves the right to revoke, without refund, the admission tickets or wristbands of anyone for just cause. This may also lead to being banned from future NELA events. We will refund the admission fee of anyone who finds the policies contained herein unacceptable prior to accepting their wristband.

NELA expects attendees, including vendors, volunteers, and staff, to adhere to the Rules detailed here in the program book and to the additional rules that may be posted for the Taster, play party, and other individual events, as well as our general code of conduct regarding consent, consensual behavior, and harassment. Harassment of any kind is not permitted, including but not limited to racial, verbal, physical, and online harassment. Stalking, intimidation, coercion, disregard of safe words or negative signals, and touching without permission are all considered nonconsensual behavior and are in violation of the code of conduct. In the case of an incident where the code of conduct is breached, attendees have the option of reporting to our Incident Response Team (IRT).

**The IRT may be contacted by (401) 384-0392  
Or by email to [IRTatFFF@gmail.com](mailto:IRTatFFF@gmail.com)  
And an IRT member is stationed in the  
Newport Room during Volunteer Lounge hours.**

The Incident Response Team follows these principles:

- We take all complaints and reports into consideration.
- We may initiate significant action in response to a single complaint.
- We are careful to correctly identify persons in the complaint.
- We treat the people making complaints with respect, listen to them, and take the complaints seriously.
- When appropriate, we work to bring about a resolution, which mitigates future harm (so far as is possible).

At the discretion of the person reporting an incident, the other party and others who were present may be told there is a complaint, but the source of the complaint will not be identified without their permission. Reporters' confidentiality will be respected.

Incident Response Team (IRT) members are available 24 hours per day throughout the event to assist you. The IRT members are volunteers and are not members of the NELA Board. Any staff member, Dungeon Monitor (DM), Safety Team, or NELA board member can also put you in touch with the IRT.

**The IRT Process:** The IRT person you approach to report an incident may take the report personally or they may help you find another member of the IRT to respond or to take the report. A member of the IRT will make a written report and ask you for the details as needed to understand and attempt to resolve the issue and mitigate further harm. If you give us a name and contact information, we will follow up with you as needed, but we also will accept anonymous reports. We will inform you what our next steps will be and any further action(s) to be taken. If you request a follow up, we will follow up with you and let you know the outcome of the IRT's actions.

If your report requires post-event follow-up, you will hear from the Board or NELA staff by March 15 at the latest, if you gave us your contact info.

Some very important words about consent from NELA:

Recently, consent violations have been the subject of both national news and local incidents, which is why we are bringing you these words and tips about what consent is, how it works, and how it can go wrong.

Consent is the lifeblood of the kink community. Consent is defined as “permission for something to happen or agreement to do something.” In kink, it means someone gives their permission for certain acts or types of relationships. Having consent in place during a scene or relationship is what makes that scene or relationship ethical and what differentiates a BDSM or kink relationship from an abusive one.

So, how do we establish consent? By negotiating. Negotiation is a “discussion aimed at reaching an agreement,” and in the kink/BDSM world, that discussion is about what things are okay and not okay to occur during the scene or relationship. The exact details of the discussion will differ each time you negotiate, but it is important to negotiate every time you engage in a kinky or sexual interaction with someone. Remember, just because someone has given you the okay once does not mean that they have given you the okay indefinitely! The exception to this is if you have made a long-term agreement with a person that states otherwise (generally via a long-term M/s or D/s agreement). But even in relationships where this ‘blanket consent’ is in place, it is important to update each other periodically on things that might have changed, such as limits, medical issues, mental health status, etc. Make sure each person has a chance to express any concerns regarding the activities being discussed, and to respect the other person if they set a limit or express that they do not feel comfortable doing something.

Here are some other helpful things to remember about consent:

- Consent can be withdrawn at any time, either via the use of safe words or via discomfort being voiced.
- Just because you are in a certain dynamic (such as D/s) with someone does not automatically give them ‘blanket consent.’ This must be negotiated.
- “Yes” means “yes,” and consider anything else (“maybe,” “I don’t know,” “I’m not sure”) a “no.” Consent should be given enthusiastically, not uncertainly, as this is safest!

If we do not negotiate well or if we let communication lapse, we risk violating consent. A consent violation often happens when someone chooses to ignore or crosses someone’s boundaries. Not every consent violation is a sexual assault (touching someone sexually or performing a sexual act on someone without their permission). Many other things that may not seem “as severe” can also make people feel as if their consent has been violated and need to be taken just as seriously. Consent can be violated accidentally; these mistakes are sometimes called “consent accidents,” because they happen due to miscalculation, miscommunication, or misinterpretation of information. Their being accidental doesn’t make them any less painful or harmful, and they have consequences just as purposeful consent incidents do.

Common consent violations include touching someone in a not-explicitly-sexual way that has not been discussed (i.e. rubbing someone's back without asking), hitting someone without it being negotiated (assault and battery), pushing someone's boundaries (hitting someone harder than okay-ed, pressuring someone to engage in sexual activity during a non-sexual scene), doing something during a scene that was not negotiated (i.e. bringing in a toy that wasn't okay-ed, bringing other people into the scene that weren't cleared), and, of course, sexually assaulting someone.

Some helpful hints to avoid violating consent:

-Remember, consent is enthusiastic! If someone seems unsure or hesitant about doing something, do not engage in that activity, and definitely do not try to pressure them to do the activity.

-Never renegotiate scene activities while the scene is occurring. People involved in scenes can get into altered headspaces, and may be saying "yes" to something they aren't quite clear on or wouldn't have said "yes" if they weren't already involved in a scene.

-Speaking of altered headspaces, unless everyone involved is clear on the risks involved and are okay with them, do not engage in kink activities under the influence of drugs and/or alcohol. As adults, you can choose how you want to practice kink, but be aware that your risk of violating consent substantially increases if you are under the influence during a scene.

-Check in during a scene! If someone has become very quiet, appears uncomfortable, seems upset, check in with them. It's better to be overly cautious than to accidentally harm someone.

Everyone will violate consent at some point via a "consent accident," as humans aren't perfect at communication. When you do, it is important to:

-Thank the person whose consent you've violated for telling you how they feel, even if their experience is different from your own.

-Acknowledge that their perspective is valid, using language like, "I'm so sorry that you were hurt by my actions and didn't feel comfortable telling me at the time" or "I'm sorry that we did something that you weren't a full yes to."

-Acknowledge that you didn't mean to hurt them, but that it still happened. While it might be true that you didn't realize what was happening, that doesn't change the fact that an injury (physical or emotional) happened.

-Apologize by explicitly admitting the thing that you did ("I'm sorry/I really regret that I did \_\_\_\_"). If you name the thing, you show that you truly understand where the accident happened.

- Ask what you could have done differently, or what you can do to help. Give the person time and space if they need it or if they do not yet have an answer for you.

Thank you so much for reading this very important information, and happy kinking!

This includes each of the hotel's lobbies, restaurants, bars, restrooms, ballrooms, vending, classrooms, elevators, pools stairwells, parking lots, hallways, laundry rooms, etc.. A privately rented room is not considered a public area.

## Accessibility/Etiquette

### Accessibility

It is our goal to make the Fetish Fair Fleamarket® welcoming and accessible to all attendees. Here are some things you can do to help:

- Please ask and wait for permission before you try to help someone with an obvious accessibility issue.
- Please do not pet, offer food to, or interact with service animals in any way, without the handler's specific permission. You are supporting the independence and autonomy of the handler by not distracting the animal from their work.
- There is designated seating in each class area for persons with accessibility needs. Please be mindful of these areas, and allow those who need them priority access, if they choose to use them. If empty when a class starts, the seating is available to any attendee.

If you have questions, concerns or need assistance regarding access at the event, please visit the Registration Desk and request a NELA Board Member or Staff Member to assist you.

NELA is committed to continually improving accessibility at the Fetish Fair Fleamarket®. Please contact [chair@NELAonline.org](mailto:chair@NELAonline.org) with suggestions, questions, or requests.

### **Gender Etiquette**

The Fetish Fair Fleamarket® draws attendees with many forms of gender expression or gender identity, some of whom may not conform to the male/ female binary. In order to make this event more accessible and enjoyable for everyone, please keep the following points in mind:

### **Privacy**

Please respect peoples' privacy and boundaries, and do not ask unnecessary questions about appearance or gender.

### **Pronouns**

A person's external appearance may not match their gender identity or expression. It is best to ask people which pronoun they prefer before using pronouns or gendered words (he, hers, waiter, waitress, etc.). In situations where you don't have an opportunity to ask a preference, use gender-neutral descriptions like "the person in the red shirt". Some examples of non-binary pronoun sets are 'they/them/their', 'xe/xem/xyr' but many other sets are used.

### **Restrooms**

With exception of the restrooms by the restaurant and bar, all of the restrooms on the main floor of the hotel and in classroom areas are gender-neutral.

### **Consent and Harassment**

The Fetish Fair Fleamarket® is a Risk Aware, Consensual Kink (RACK) environment. Non-consensual, discriminatory, and derogatory behaviors or situations are NOT acceptable. If you see something, say something.

NELA is dedicated to providing a safe and comfortable experience for everyone.

Harassment of any kind, including physical assault, battery, deliberate intimidation, stalking, or unwelcome physical attentions, will not be tolerated.

If people tell you "no" or to leave them alone, your business with them is done. Leave them alone. Do not follow them or attempt to disrupt their event experience in any way. If you continue to attempt to have contact with those people, you may be removed from the Event without refund.

The Fetish Fair Fleamarket® has a Conflict Response Team available to assist you in the event an incident occurs.

### **Dress Code**

The Fetish Fair Fleamarket® does not allow nudity in any public areas of the host or overflow hotels. "Sidewalk Friendly" attire is required, with chests, buttocks, and genitalia covered in a manner that would be appropriate for a public street. This applies to attendees of all gender expressions. While the Fetish Fair Fleamarket® is a kink event, our goal is the comfort of all attendees, hotel guests, and the hotel staff.

Liquid Latex only, body paint only, transparent clothing with nothing underneath, and/or a thong and pasties are not considered "Sidewalk Friendly".

Footwear that completely covers the bottom of the foot is required in all public areas of the host and overflow hotels, except the pool/hot tub.

Cell phones with uncovered camera lenses are strictly prohibited from the Fetish Fair Fleamarket® and NELA events.

Cell phones should be silenced and put away in classrooms, lounges, socials, and events.

Cell phone use is prohibited at the Saturday Night Play Party.

Violation of the cell phone policy is cause for ejection from the event without refund.

## **Photography / Video**

Unauthorized photography, video, or audio recording in any public area by any attendees, vendors, presenters, NELA or Fetish Fair Fleamarket® volunteers, or staff, is grounds for removal from the event without refund.

There may be Authorized Photographers or members of the Media present at the Fetish Fair Fleamarket®. Please see the Media section below.

## **Media/ Authorized Photographers**

Members of the Media and Authorized Photographers are welcome at the Fetish Fair Fleamarket®. Please contact NELA before the event to obtain a press/ photographer's pass.

Media/ Authorized Photographer badges should be worn prominently at all times in either the host or overflow hotels.

Locations of private events within the host or overflow hotels may not be publicly advertised by any means. This includes online, at tables of vendors/organizations or elsewhere on hotel property.

Attempting to profit, either directly or indirectly, from the New England Leather Alliance trademark, reputation, or NELA events, or the Fetish Fair Fleamarket®, FFF, Winter Flea or Summer Flea, without a previously approved and acknowledged official relationship (i.e. official vendor, presenter, sub-event producer/promoter, contractor, etc.) is strictly prohibited, and may result in legal action.

Examples include (but are not limited to):

- Resale or attempted resale of event tickets or room reservations at NELA event hotels
- Erroneous claims of affiliation with or endorsement by NELA
- Unauthorized promotion or solicitation at NELA events or on electronic platforms

Will this be your first BDSM event? Are you new to the dungeon or play party circuit? Not sure what to expect at NELA's Play Party Saturday night? Just want to try something and be able to ask questions of an experienced player? We'll have a great selection of 'stations' where you can try out things from our 'tasting menu' including rope bondage, spanking, canes, sensation play and more.

You will be able to meet new people, learn basic etiquette for playing around others while exploring and experiencing new things from either the giving or the receiving end (or both)! Come check out our "tasting menu" of stations. Our station hosts are there to answer questions and give you a "taste" from their menu, either as the top, bottom, or both. This is a no pressure event; feel free to observe, ask questions, try one thing or many. Please note this is not a play party, but a 'taster' for short learning experiences only.

## **BDSM and Aging**

*General Skills—Sat 9:00 AM-10:30 AM—Barrington*

As people get older, they don't lose interest in sex or in BDSM play - but given the changes in the body and brain during the aging process, some noticeable and predictable impacts on sex and BDSM play develop. This presentation discusses some of the changes that aging might bring to one's sexuality, and explores some possible positive impacts of BDSM on healthy aging.

*Richard Sprott*

**BDSM Taster***EVENT—Fri 7:45 PM-9:45 PM—Plaza Ballroom*

You will be able to meet new people, learn basic etiquette for playing around others and explore and experience new things from either the giving or the receiving end (or both)! Come check out our “tasting menu” of stations including electrical play, flogging, caning, rope bondage and more. Our station hosts are there to answer questions and give you a “taste” from their menu, either as the top, bottom, or both. This is a no pressure event; feel free to observe, ask questions, try one thing or many. Please note this is not a play party; this is a tasting menu!

*Danie***Best Kink Advice Nobody Told You***General Skills—Fri 6:00 PM-7:30 PM—Bristol*

Do you want more fulfilling play? Need more effective ways to uncover the other's real desires and minimize scene failure? Dissatisfied with scenes or frustrated at not having your desire accepted? How do you create a multi person scene where everyone is happy? Join Midori in this popular and unique class where she explodes the standard definitions of kink and expands the idea of what it is all about. She maps out a fine-tuned and flexible framework that anyone can use to better describe their appetites. The first step to fulfilling your desire is to better understand them, then effectively and appealingly conveying them. A class for those who want hotter play, and those don't quite fit into the standard boxes... and for anyone who is curious about their own pleasure potential!

*Midori***Black and Blues: X-Drop (sub drop, Top drop, event drop)***General Skills—Sun 11:45 AM-1:15 PM—Barrington*

Some people after an intense scene or after an excellent weekend event, will experience a range of emotional states that can include feeling depressed, empty, abandoned or disconnected. We will explore some ideas of what's going on, exploring psychobiological explanations, grief/bereavement, and how these might be related to peak erotic experiences and personal growth.

*Richard Sprott***Body Impact: the Basic, the Complex, and the Cheats***Impact—Sun 2:00 PM-3:30 PM—Ocean*

Although toys can be really fun to use during impact scenes, there's nothing quite as effective at causing pain as using your built-in tools-parts of your body! During this class, Sara Scalper will show you a variety of rough body play techniques for impact that will have your bottom squirming in pain. You will learn which parts of the body are safe to hit and how to hit them properly, “working up” from commonly-hit areas to more “edgy” ones. Sara will show topping techniques done with hands, elbows, knees, feet, and perhaps a few other body parts that might surprise you, and will teach a few “cheats” that will help you incorporate toys into a rough body place scene to accentuate the body impact! Attending this class will make you think of “body language” in a completely different way!

*Sara Scalper***Bootblacking Stand - Friday - Saturday - Sunday***Lounge—Fri 6:00 PM-10:00 PM—Bootblacking**Lounge—Sat 10:00 AM-6:00 PM—Bootblacking**Lounge—Sun 10:00 AM-4:00 PM—Bootblacking*

The Bootblack Stand is back this year for all of your boot and leather needs. Come by, take a load off, watch the beautiful fetish wear go by, and let our team of skilled bootblacks care for your boots, jackets, pants, vests, chaps, and toys. Donations go to The Boston Living Center and you'll look great when we're done.

*Jay Falcon***Bringing Dracula to the Dungeon: Vampire Role Play***Role Play—Sat 9:45 PM-11:15 PM—Greenwich*

Ever wonder about how to bring the dark fantasy of the vampire into your scene? Join Ramirez as he gives insight as to how to bring such fantasies to life. We will be discussing and demonstrating the techniques of the fanged, as well as attire, props, and technical effects. We will also cover the psychological aspects and pleasures of vampire roleplay.

*Lord Ramirez, Rubix***Building Roleplay Scenarios***Role Play—Sat 6:15 PM-7:45 PM—Greenwich*

Let's get together and talk about how we plan, build, and erotically execute roleplay scenes that have a higher level of plot/scripting than just establishing what our roles are (e.g. 'me daddy/you boy, GO!'). This isn't a class on how to stage a sexy play for your friends and family, but instead we're going to talk about how to keep the fun and excitement in our roleplaying lives, while still having our scenarios hit pre-determined milestones and progressing through a laid out 'story arc.' We'll talk about just how clearly laid out you want that story arc to be, when you want to 'stick to the script' and when you don't, where these ideas come from in the first place, and many more.

*Wintersong***Calibration: Good Scenes For Every Body***Impact—Sat 2:15 PM-3:45 PM—Greenwich*

What is calibration, you may ask? The dictionary definition is “the act of checking or adjusting the accuracy of an instrument.” Applying this concept in a BDSM context in a scene, a top's body is the instrument. The top can adjust what implements they use, the intensity of their use, the patterns they are used in, etc. to become more “in tune” with the bottom-which results in a more satisfying scene for all. Toppo folks will learn how to negotiate thoroughly with bottoms, clearly read communication signals bottoms give off during a scene, and calibrate their actions resulting in more satisfying scenes. Bottomy folks will learn what to look for when negotiating with a potential top as well as ways to communicate how they're feeling during a scene in order to assist the top in calibration.

*Sara Scalper***Cathartic Flogging***Whip—Sat 2:15 PM-3:45 PM—Rotunda*

Catharsis is a process of release, purification, and relief, whereby one is rid of repressed emotions and energies. Come learn how flogging can elicit mental, emotional, physical, and spiritual catharsis. This workshop does not focus on technical flogging skills, so please have some knowledge of the fundamentals.

## **Cut Downs and Cut Outs**

*General Skills—Sun 2:00 PM-3:30 PM—Greenwich*

We spend hours practicing our ties, thinking up new and creative ways to bind and contort the body with rope, or straps, or other types of bondage. How much time has been spent thinking about getting the person out or down in an emergency? How much time have you spent practicing for problems that may come up? Your rope skills may be tight, but that doesn't stop the building from catching fire, the ceiling from collapsing or someone else from making a mistake. This class will be an opportunity to discuss those problems that may come up, the tools you would use in case of emergency and when to make the decision to cut. As the class draws to a close you will have the opportunity to practice cutting rope under tension. These minutes of practice could make the difference when seconds count.

## **Developing Your Rope Risk Profile**

*Rope—Fri 6:00 PM-7:30 PM—Barrington*

Rope involves risk. Both the fibers we use and the people we tie with are imperfect. We can't control everything that happens in a scene. But we can make informed choices about which types of risk we are willing to assume. Risk profiles are highly individual: what seems reasonable to one person may not make sense for another. Class participants will actively work through a framework identifying the various levels of risk attached to different ties and rope styles. This class is taught from a bottom's perspective, but will also be useful for tops interested in thinking through and developing a framework for what types of risk they are comfortable in engaging. Those interested in impact or edge play may also find the framework to be valuable in their kink activities.

### **Exploring Consent from the Right Side of the Slash**

*Submissive Mindset—Sat 6:15 PM-7:45 PM—Barrington*

Consent - sometimes it's easy to negotiate, and sometimes it's not. When you know you're going to be negotiating a scene, you can get into the right headspace to state your boundaries and limits and feel comfortable in the negotiations, but what about all the other times consent issues come up? - The challenges of online communities - A stranger touches you without asking - Someone you are friendly with socially, assumes more contact than you are comfortable with - Someone makes comments or advances towards you that make you uncomfortable. In addition to discussing the challenges of these and other situations, we'll use exercises to gain practice handling ourselves in them and talk about ways of dealing with the aftermath of consent violations.

### **Flirting for the Socially Awkward**

*Communication—Sat 10:45 AM-12:15 PM—Greenwich*

On Fetlife, Ok Cupid and various other social networking sites, creepers are a commonality. They send graphic and unsolicited messages, they don't read profiles, they make inappropriate assumptions. Many of us can agree on this. However, what about the well-intended folks that might be slightly socially awkward?

What if you didn't even know you were being a creeper? Having trouble finding people to date or play with and starting to wonder what you could do differently? During this session, attendees will learn appropriate and respect ways of approaching, negotiating and interacting with people they'd like to date.

**Guy Problems: Looking at forms of societal oppression that men encounter from an intersectional perspective**

Gender—Sun 2:00 PM-3:30 PM—Kingston

There is no denying that men carry a significant amount of privilege in our society. For that matter, the bulk of the oppression and injustice that abounds in our world can be laid at the feet of (mostly white and cis) men. It is easy then, especially for those of us in the queer and social justice movements, to have monolithic ideas of what it means to be a guy. And the fact that 'men's issues' has become synonymous with misogyny thanks to the MRA movement doesn't help mutual understanding. But there are issues that men & boys struggle with, and ways that being a guy in our society can suck too. This workshop looks at a variety of those issues with an eye towards dispelling assumptions, enhancing empathy, and finding points of intersection with the lives and struggles of other people.

**Negotiation and Consent: The Good, the Bad and the Ugly**

*Communication—Sat 9:00 AM-10:30 AM—Rhode Island*

Consent is the cornerstone of BDSM so those who play should be really good at getting and giving it, right? And yet, reports of consent violations are on the rise. How can that be? One reason is that too many people take negotiation skills for granted. Arriving at a place of mutual consent is a skill; and negotiation is a process, not an event. We'll discuss things like: Important questions you should always ask (and others that you might want to add) The difference between negotiation and subtle (or not so subtle) manipulation. Broken boundaries and safeword slip ups; intentional and accidental and how to handle them. We do not claim to have all the answers; our hope is that we will all leave this class with stronger consent muscles than we started with.

## **Proficiency in the Basics of Rope**

Rope—Sat 6:15 PM-7:45 PM—Kingston

A perfect knowledge of a tie is nothing if it hasn't been practiced in many ways and methods. Think to yourself. Yes, I know a single column tie. But can you do that tie around a larger column? What about with only one hand? Or even with your eyes closed? What if you couldn't stand up? With those parameters, are you still proficient? Only the proficient mind has thought of all the ups and downs and still tries again to make those imperfections perfect. Through a series of drills and games, come practice and use your current knowledge - wherever the starting point may be - to work toward mastery of the ways in which you tie. Please bring a few lengths of rope and (optional) someone to tie.

General Skills—Sat 12:30 PM-2:00 PM—Ocean

Many of us have felt immense guilt when we've realized just how much we enjoy hurting people. Discuss some of the difficulties you've have had when embracing your sadistic tendencies as well as engage in an exploration of why these difficult feelings occur. Explore misconceptions regarding sadism and where they come from, as well as different types of ethical sadism/sadist archetypes. This is largely a philosophical class, but there will be a "develop your inner sadist" portion near the end where we'll discuss folks' concerns and share deviously delicious tips and tricks on ways to hurt without causing harm.
